

Assessment points

Students can be assumed to have reached the target level when they have been observed doing the following:

Target:

Flip and Spin - Hundreds

Independently counts forwards and backwards from any whole number in the range to 999 by 1s, 10s and 100s

Number Hunt - Hundreds

Independently counts forwards and backwards from any whole number in the range to 999 by 1s, 10s and 100s

Target:

Count 9999

Independently counts forwards or backwards from any number in the range to 100 by 10s

NB It is necessary to observe students demonstrating a skill in a number of different contexts in order to be confident that they have a genuine understanding. That what they have learned is a general principle that is likely to be useful to them in real-world problem solving situations
